HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

FOREWORD

SUSANNE ALBERS¹ AND JEAN-YVES MARION²

¹ Department of Computer Science, University of Freiburg

² Loria and ENS des Mines de Nancy
E-mail address: `jean-yves.marion@loria.fr`

The Symposium on Theoretical Aspects of Computer Science (STACS) is held alternately in France and in Germany. The conference of February 26-28, 2009, held in Freiburg, is the 26th in this series. Previous meetings took place in Paris (1984), Saarbrücken (1985), Orsay (1986), Passau (1987), Bordeaux (1988), Paderborn (1989), Rouen (1990), Hamburg (1991), Cachan (1992), Würzburg (1993), Caen (1994), München (1995), Grenoble (1996), Lübeck (1997), Paris (1998), Trier (1999), Lille (2000), Dresden (2001), Antibes (2002), Berlin (2003), Montpellier (2004), Stuttgart (2005), Marseille (2006), Aachen (2007), and Bordeaux (2008).

The interest in STACS has remained at a high level over the past years. The STACS 2009 call for papers led to over 280 submissions from 41 countries. Each paper was assigned to three program committee members. The program committee held a two-week electronic meeting at the beginning of November and selected 54 papers. As co-chairs of the program committee, we would like to sincerely thank its members and the many external referees for their valuable work. The overall very high quality of the submissions made the selection a difficult task.

We would like to express our thanks to the three invited speakers, Monika Henzinger, Jean-Éric Pin and Nicole Schweikardt, for their contributions to the proceedings.

Special thanks are due to A. Voronkov for his EasyChair software (www.easychair.org). Moreover we would like to thank Sonja Lauer for preparing the conference proceedings and continuous help throughout the conference organization.

For the second time this year's STACS proceedings are published in electronic form. A printed version was also available at the conference, with ISBN 978-3-939897-09-5. The electronic proceedings are available through several portals, and in particular through HAL and DROPS. HAL is an electronic repository managed by several French research agencies, and DROPS is the Dagstuhl Research Online Publication Server. We want to thank both these servers for hosting the proceedings of STACS and guaranteeing them perennial availability. The rights on the articles in the proceedings are kept with the authors and the papers are available freely, under a Creative Commons license (see www.stacs-conf.org/faq.html for more details).

STACS 2009 received funds from the German Research Foundation (Deutsche Forschungsgemeinschaft, DFG) and the University of Freiburg. We thank them for their support!

December 2008

Susanne Albers
Jean-Yves Marion

Conference organization

STACS 2009 was organized by the Chair of Algorithms and Complexity at the University of Freiburg under the auspices of the Special Interest Group for Theoretical Computer Science of the Gesellschaft für Informatik (GI).

Members of the Program Committee

Susanne Albers	<i>University of Freiburg</i>
Andris Ambainis	<i>University of Latvia</i>
Philippe Baptiste	<i>École Polytechnique & CNRS LIX</i>
Holger Bast	<i>MPI Saarbrücken</i>
Patricia Bouyer	<i>CNRS & ENS Cachan</i>
Martin Dietzfelbinger	<i>TU Ilmenau</i>
Zoltán Ésik	<i>University of Szeged & University of Tarragona</i>
Christiane Frougny	<i>University of Paris 8 & LIAFA CNRS</i>
Leonid Libkin	<i>University of Edinburgh</i>
Meena Mahajan	<i>Institute of Mathematical Sciences Chennai</i>
Jean-Yves Marion	<i>Nancy-Université & Loria</i>
K. Narayan Kumar	<i>Chennai Mathematical Insitute</i>
Friedrich Otto	<i>University of Kassel</i>
Joël Ouaknine	<i>University of Oxford</i>
Harald Räcke	<i>University of Warwick</i>
Eric Rémila	<i>CNRS & University of St-Etienne</i>
Adi Rosén	<i>CNRS & University of Paris 11</i>
Martin Skutella	<i>TU Berlin</i>
Jeremy Spinrad	<i>Vanderbilt University</i>
Kavitha Telikepalli	<i>IISc Bangalore</i>
Thomas Wilke	<i>University of Kiel</i>
Philipp Woelfel	<i>University of Calgary</i>

Members of the Organizing Committee

Susanne Albers
 Gero Greiner
 Tobias Jacobs
 Sonja Lauer
 Alexander Souza
