Link the resources on HAL

HAL Open Archive allows the users to link several resources between them by using a functionality present on the platform.

# My deposits

First, you must go to your « **My deposits** » space located at the top right corner of the portal:

# My deposits

You will be redirected to a page with all your deposits. Choose a record, then click on  and select « **Link the resources** »:

**My deposits**

hal-03651722v1  **Type** ▾ **Status** ▾ **Date of deposit** **Publication date**

Astuces de dépôt - Lier des notices dans HAL

Type	Status	Date of deposit	Publication date	
Fulltext	Online	2023-05-03	2023-05-03	

Other publications | hal-03651722v1

1

-  Open publication
-  Share / Export
-  Modify the metadata
-  Add an annex file
-  Deposit a new version
-  **Link the ressources**

# Link my resources

The « Link my resources » functionality appears and allows you:

- To create a link between your deposits.  
You just need to enter the identifier of the second deposit in the corresponding field.
- To select the type of link « **Relationship** » in the scrollable list.
- Then, you can add a « **Comment** » in the dedicated field.
- **See the following example:**

# Link my resources

Link the resources

Relationship	HAL Identifier	Comments
<input type="text" value="is illustrated by"/>	<input type="text" value="hal-03651731"/>	<input type="text" value="Visual illustration"/>

- illustrate
- is illustrated by
- is required by
- requires
- is part of
- has part
- is referenced by
- references
- is format of
- has format

# Result

- You can create several links for the same deposit.
- You don't need to do the same step for the second deposit.  
A parallel link is automatically created for the others records.
- You can also complete these steps by going directly to the page of your publication.  
You will find in the menu on the right the option « **Link resources** ».
- After saving, the link is visible in the record and allows readers to navigate more easily through all the concerned deposits (**See the following example**):

# Relationships between linked deposits

## Dates and versions

hal-03651722, version 1 (03-05-2023)

## Identifiers

HAL Id: **hal-03651722**, version 1
